

adding another resource section for a rag based approach might be useful for that we can use the in window nav bar. and a button that will actually do the switching part

A wireframe of a web page layout. On the left is a vertical sidebar with four icons: a document, a speech bubble, a globe, and a gear. The main content area has a light purple header bar with the text "enter link man". Below this is a line of "Supporting text". To the right of the text is a dark grey button labeled "Button".

The screenshot displays a chat application interface with a sidebar on the left, a main chat area, and a sidebar on the right. The sidebar on the left, titled 'App', contains a search bar and a list of chat items: 'API' (gimme cheatsheet), 'Physics Quantum' (Let's go), 'Crush's text message:' (do the sentiment analysis), and 'React js cheatsheet' (the video link doesnt work). The main chat area shows a conversation with 'API'. It includes a date separator for 'Nov 30, 2023, 9:41 AM'. The chat history shows a sequence of messages: 'Oh?', 'Cool', 'How does it work?', 'Simple', 'You just edit any text to type in the conversation you want to show, and delete any bubbles you don't want to use', and 'Boom'. The current message input area at the bottom contains the text 'Enter your message'. The sidebar on the right, titled 'Browser', contains a search bar and a list of chat items: 'tab1' (gimme cheatsheet), 'tab 2' (Let's go), 'tab3' (do the sentiment analysis), and 'tab 4' (the video link doesnt work). The interface includes standard chat UI elements like a search bar, a list of chat items, a date separator, a message input area, and a list of chat items on the right sidebar.

Enter your message

The image shows a web application interface. On the left is a vertical sidebar with a light gray background, containing four icons from top to bottom: a document icon, a speech bubble icon, a globe icon, and a gear icon. The main area has a white background. At the top left of this area is a header bar with a document icon and the text 'Explorer'. At the top right is a light purple header bar with the text 'Sunnotline text'. Below these headers is a grid of eight document icons arranged in two rows of four. Each icon is a simple line drawing of a document with a folded top-right corner.

The image displays a set of 10 icons used for user interface design. The icons are arranged in a grid-like fashion. The first row contains a key icon, a text input field with a placeholder 'Value', a magnifying glass, and a radio button. The second row contains a magnifying glass, a radio button, a radio button, and a radio button. The third row contains a magnifying glass, a radio button, a radio button, and a radio button. The fourth row contains a magnifying glass, a radio button, a radio button, and a radio button. The fifth row contains a magnifying glass, a radio button, a radio button, and a radio button. The sixth row contains a magnifying glass, a radio button, a radio button, and a radio button. The seventh row contains a magnifying glass, a radio button, a radio button, and a radio button. The eighth row contains a magnifying glass, a radio button, a radio button, and a radio button. The ninth row contains a magnifying glass, a radio button, a radio button, and a radio button. The tenth row contains a magnifying glass, a radio button, a radio button, and a radio button.
